

Doxim, a Leading Provider of Customer Engagement Software for Financial Service Organizations, Welcomes Mei Dent as Senior Vice President of Engineering

San Francisco, CA — December 3, 2019 Renovata & Company is pleased to announce the placement of Mei Dent as senior vice president of engineering for Doxim, a leading provider of customer engagement software for financial services and other regulated organizations. Dent brings to her new role more than 25 years of executive experience leading the design and delivery of enterprise software, with a proven track record for time to market, quality and customer satisfaction.

Doxim is a customer communications and engagement technology leader serving financial and regulated markets. The company's Customer Engagement Platform helps clients communicate reliably and effectively, improve cross-sell and upsell opportunities, and drive increased loyalty and wallet share through personalized communications. The platform addresses key digitization, operational efficiency and customer experience challenges through its suite of plug-and-play, integrated software-as-a-service (SaaS) software and document technology solutions.

Founded in 2000, Doxim has experienced rapid growth during the past five years, fueled by strategic M&A activity and private equity investment. Backed by GI Partners, the company operates from seven locations across North America, has more than 500 employees, and serves more than 2,000 clients in financial services and regulated industries. Doxim has received numerous awards for its financial success and product innovation, and has ranked in Deloitte Fast 50, Deloitte Fast 500, Growth 500, Branham 300, IDC FinTech Top 100 and WealthTech100.

"Mei is an excellent coach and mentor who will build trust and motivation in the engineering organization through clarity in vision and strategy, talent development and continued process improvements," says Simon Francis, Renovata & Company partner. "She's a collaborative team player who will foster strong partnership with stakeholders through shared vision and excellent communication."

Prior to joining Doxim, Dent spent more than 24 years at OpenText—a computer software company specializing in enterprise information management (EIM). Most recently she was vice president, research and development; before that she held several senior management positions, spanning research and development, architecture, and product development. Before joining OpenText, she was a software developer for IBM Canada Ltd.

About Renovata & Company

Renovata & Company is a global executive search and private equity advisory firm. We are trusted by financial sponsors, their portfolio companies and public corporations to deliver transformational leaders and valuable investment insights. Renovata & Company's executive search activities are focused on the most complex search assignments—board-level mandates which include board directors, CEOs, CFOs and other C-suite executives, as well as investment professionals and Operating Partners—and we provide strategic counsel to clients across the technology, digital, business services, industrial, consumer and retail sectors. Renovata & Company has relationships with over 50 of the top 100 private and growth equity firms globally. Our private equity advisory services include diligence support, backable executive introductions and deal sourcing delivered by our affiliate, L Capital Advisors. We also make equity co-investments alongside our private equity clients through our investment affiliate, L Capital. We are privately held and operate from five offices across two continents: Boston, Hamburg, London, New York and San Francisco. www.renovata.com
